

# Memories With Kayla Aspen Photography

*To my families.*

This is it. Whether your babies are little, or your baby is still growing inside of you, this season is passing. My goal is to tell your story...capture these memories so you have beautiful photos to look back on when your babies are grown and you're old and grey. My portrait packages are hand-crafted for families just like yours to leave you with a piece of this season as you enter a new one. I look forward to meeting you!

*xoxo. Kayla*

These ALL INCLUSIVE sessions are perfect for families, couples and maternity. Each package includes your choice of location and all of the images taken at our session.

We will work together to choose the perfect location for your family. This entire session will be designed around your natural connection. Whether that's at a sweet coffee shop down-town, running through a field of wildflowers, or playing at a park, your session is unique to you.

With your package comes an online styling platform. This makes coordinating beautiful outfits easy! You are investing in these memories, so you should all feel and look your best.

Your session will be scheduled during the hour before sunset.

# Portrait Packages
